CASE HISTORY SHEET.

Hospital: St. Andrew's Station: St. Andrew's
 No. 758174 Rank 4th Name: Loane Age:
 Unit: 20#4 Completed years of service: Where and how long:
 Date of admission: 18-8-19 Date of discharge: SEP 3 1919 AUG 30 1919
 Diagnosis: Uræmia Place of origin: England

CONDITION ON ADMISSION AND PROGRESS OF CASE.

Admitted in severe - comatose state. (Uræmia?)
Marked foul odor from mouth not characteristic.
Marked stomatal herpes.
Pale skin & sclera of eye lid marked.
BP 230-120.
Urea: aebum ++. Hyaline & pale cast no sugar.
R.C.D. 11.5 cm
Blowing systolic murmur heard at 2nd space.
At 4th space there is a reg. systolic & diastolic murmur heard.
Left sternal margin over 4th rib there is a reg. systolic murmur + duplicated 2 in 5cm.
Marked aortic pulse in neck. A₂ ++.
No kerne, no nystagmus, no argument paralysis.
Patient very fatigued & no pack though aversive.
Aug 20/19. Hot Baking & Purgations. Retards flow diet.
Aug 21/19. Marked improvement in attitude & expression.
Complains of blindness in left eye. BP 210-114.

Case Notes: Had scarlet fever in 1905.

Only muddy complexion. M.M. very anæmic. Lethargic. Herpes
prob. lips. Tongue clean & pale. Stupor, no reflexes
(Tuberculosis, mental or nervous diseases) of eye lids & conjunctiva. Mentality slow but is
rational. Only high notes. Manual muscle group
in patellar triangle. No epistaxis palpable.
Pulse: high tension. 8th. regular. Large and tense ++ v.v.

TREATMENT
(Especially any specific or special form.)
Heart: On 2 seen. Felt in 5th space
palpable. 10.5 cm from m.v.s.
R.C.D. 11.5

Sound at apex 2 cm m.v.s. 1 P.S. 5
Blowing systolic murmur heard transmitted to axilla & 2nd space
+ acubital. At base a marked A₂ + P₂. There is at
left sternal margin soft blowing systolic murmur reg. heard, which is not transmitted. This is a ventricle

CONDITION ON DISCHARGE
(and disposal made of case)
pulse in neck. Left (mystic)
1 sp. below ear. (No jugation) by percussion.
Ray Sp. 1: More usual prep. Subcostal angle 50°.
Hyponia equal & ample. Negative in front.

Date:
Abdom: Soft. slight tenderness over sac region. No rigidity
no fluid. Bowels clear. Spleen not palpable. Liver a star.
Medical Officer i/c case.

M. F. B. 313a
200M. - 5-18.
1772-39-439.
K.J. Wasserman - negative

~~K.A.~~ no aura of tremors
K.F. present. Plantar flexion. No ankle clonus.

Special tests: Pkinesia on left eye (almost total). Pina 11/19.
Inability to depress chin to sternum. Some pain in muscles
of neck while attempting to do so.
No Kernig.

Additional history:

Aug 27/19 Has Icarat fever in '901. Pleurocytosis in 1914.
States he has "epileptic attacks" in '904.

In Mar 28/19 vomited at his dinner. Same night had a convulsion.
Had frequent attacks (3-4) for a week previous.

At Orlington in May 4 1919 BP 200-140.

on Jun 5/19 had uraemic attacks those capping off.

Eye report: June 2/19

Right eye: Disc swollen & flattened vessels tortuous
& small recent haemorrhages + atrophic area in macular area.
Left eye: Same but atrophic area more marked.

Calhoun Aug 23/19

Complain of pain in chest, difficult breathing + has been
vomiting all morning.

Chest: retraction in front. Behind: number of deep, and retraction
in left side but both axilla.

Aug 27/19 Calhoun: Patient has quills in dorsal bladder
thence still marked. slow circulation. Poque. BP 42-130.

Chest: Soft apical rales + P2+++.

R.C.D. $\frac{111}{13.5}$ Smear:

Lungs: normal in front. In left axilla few artificial small (beads).

At left base 2 or 3 days in cup at ~~axilla~~.

Abdomen: seen in left flank not marked.

Aug 27/19. To be shown a definite pleural friction, about 4th

space 2 inches to left of mid l., one percussion below nipple
a wavy ripple is visible at apex situated in 5th
intercostal space 10 cm from mid l. R.C.D. $\frac{111}{11.5}$

At apex the systolic murmur is still present, while over the
area between nipple + sternum a well marked pleural
friction is audible.

BP 152-86. Has been seeing ~~but~~ $\frac{111}{100}$ to
this morning's efforts for last 2 days
vomiting still continues

CONDITION ON ADMISSION AND PROGRESS OF CASE

No oedema of extremities.
Knee Jerks present. Planter flexion. No ankle clonus.
Special Senses: Blind in left eye (almost total) since March 8/19.
Inability to depress chin to sternum. Some pain in muscles of neck
while attempting to do so. No Kernig.
Additional History: Aug. 22. 19: Had Scarlet Fever in 1901. Pleurisy
left side in 1914- states he had "Epileptic" attack in 1904.
On March 28, 1918 vomited at his dinner and same night had a
convulsion. Had frequency at night (3-4) for a week previous.
At Orpington on May 4, 1919 Blood Pressure 200/140.
On June 5, 1919 had uraemia attack and had cupping and pack.
Eye Report: June 1919- Right Eye Disc swollen and inflamed, vessels
tortuous with small recent hemorrhages and atrophic areas in macular
areas. Left eye: Same but atrophic areas more marked.
Col. Browne: Aug. 23, 1919. Complains of pain in chest, difficult
breathing and has been vomiting all morning.
Chest: Negative in front. Behind: number of superficial crepitations
on left base and both axilla.
Aug. 25, 19. Col. Browne: Patient lies quietly in dorsal decubitus.
Herpes still marked and slow cerebration. Tongue..... Blood Pressure

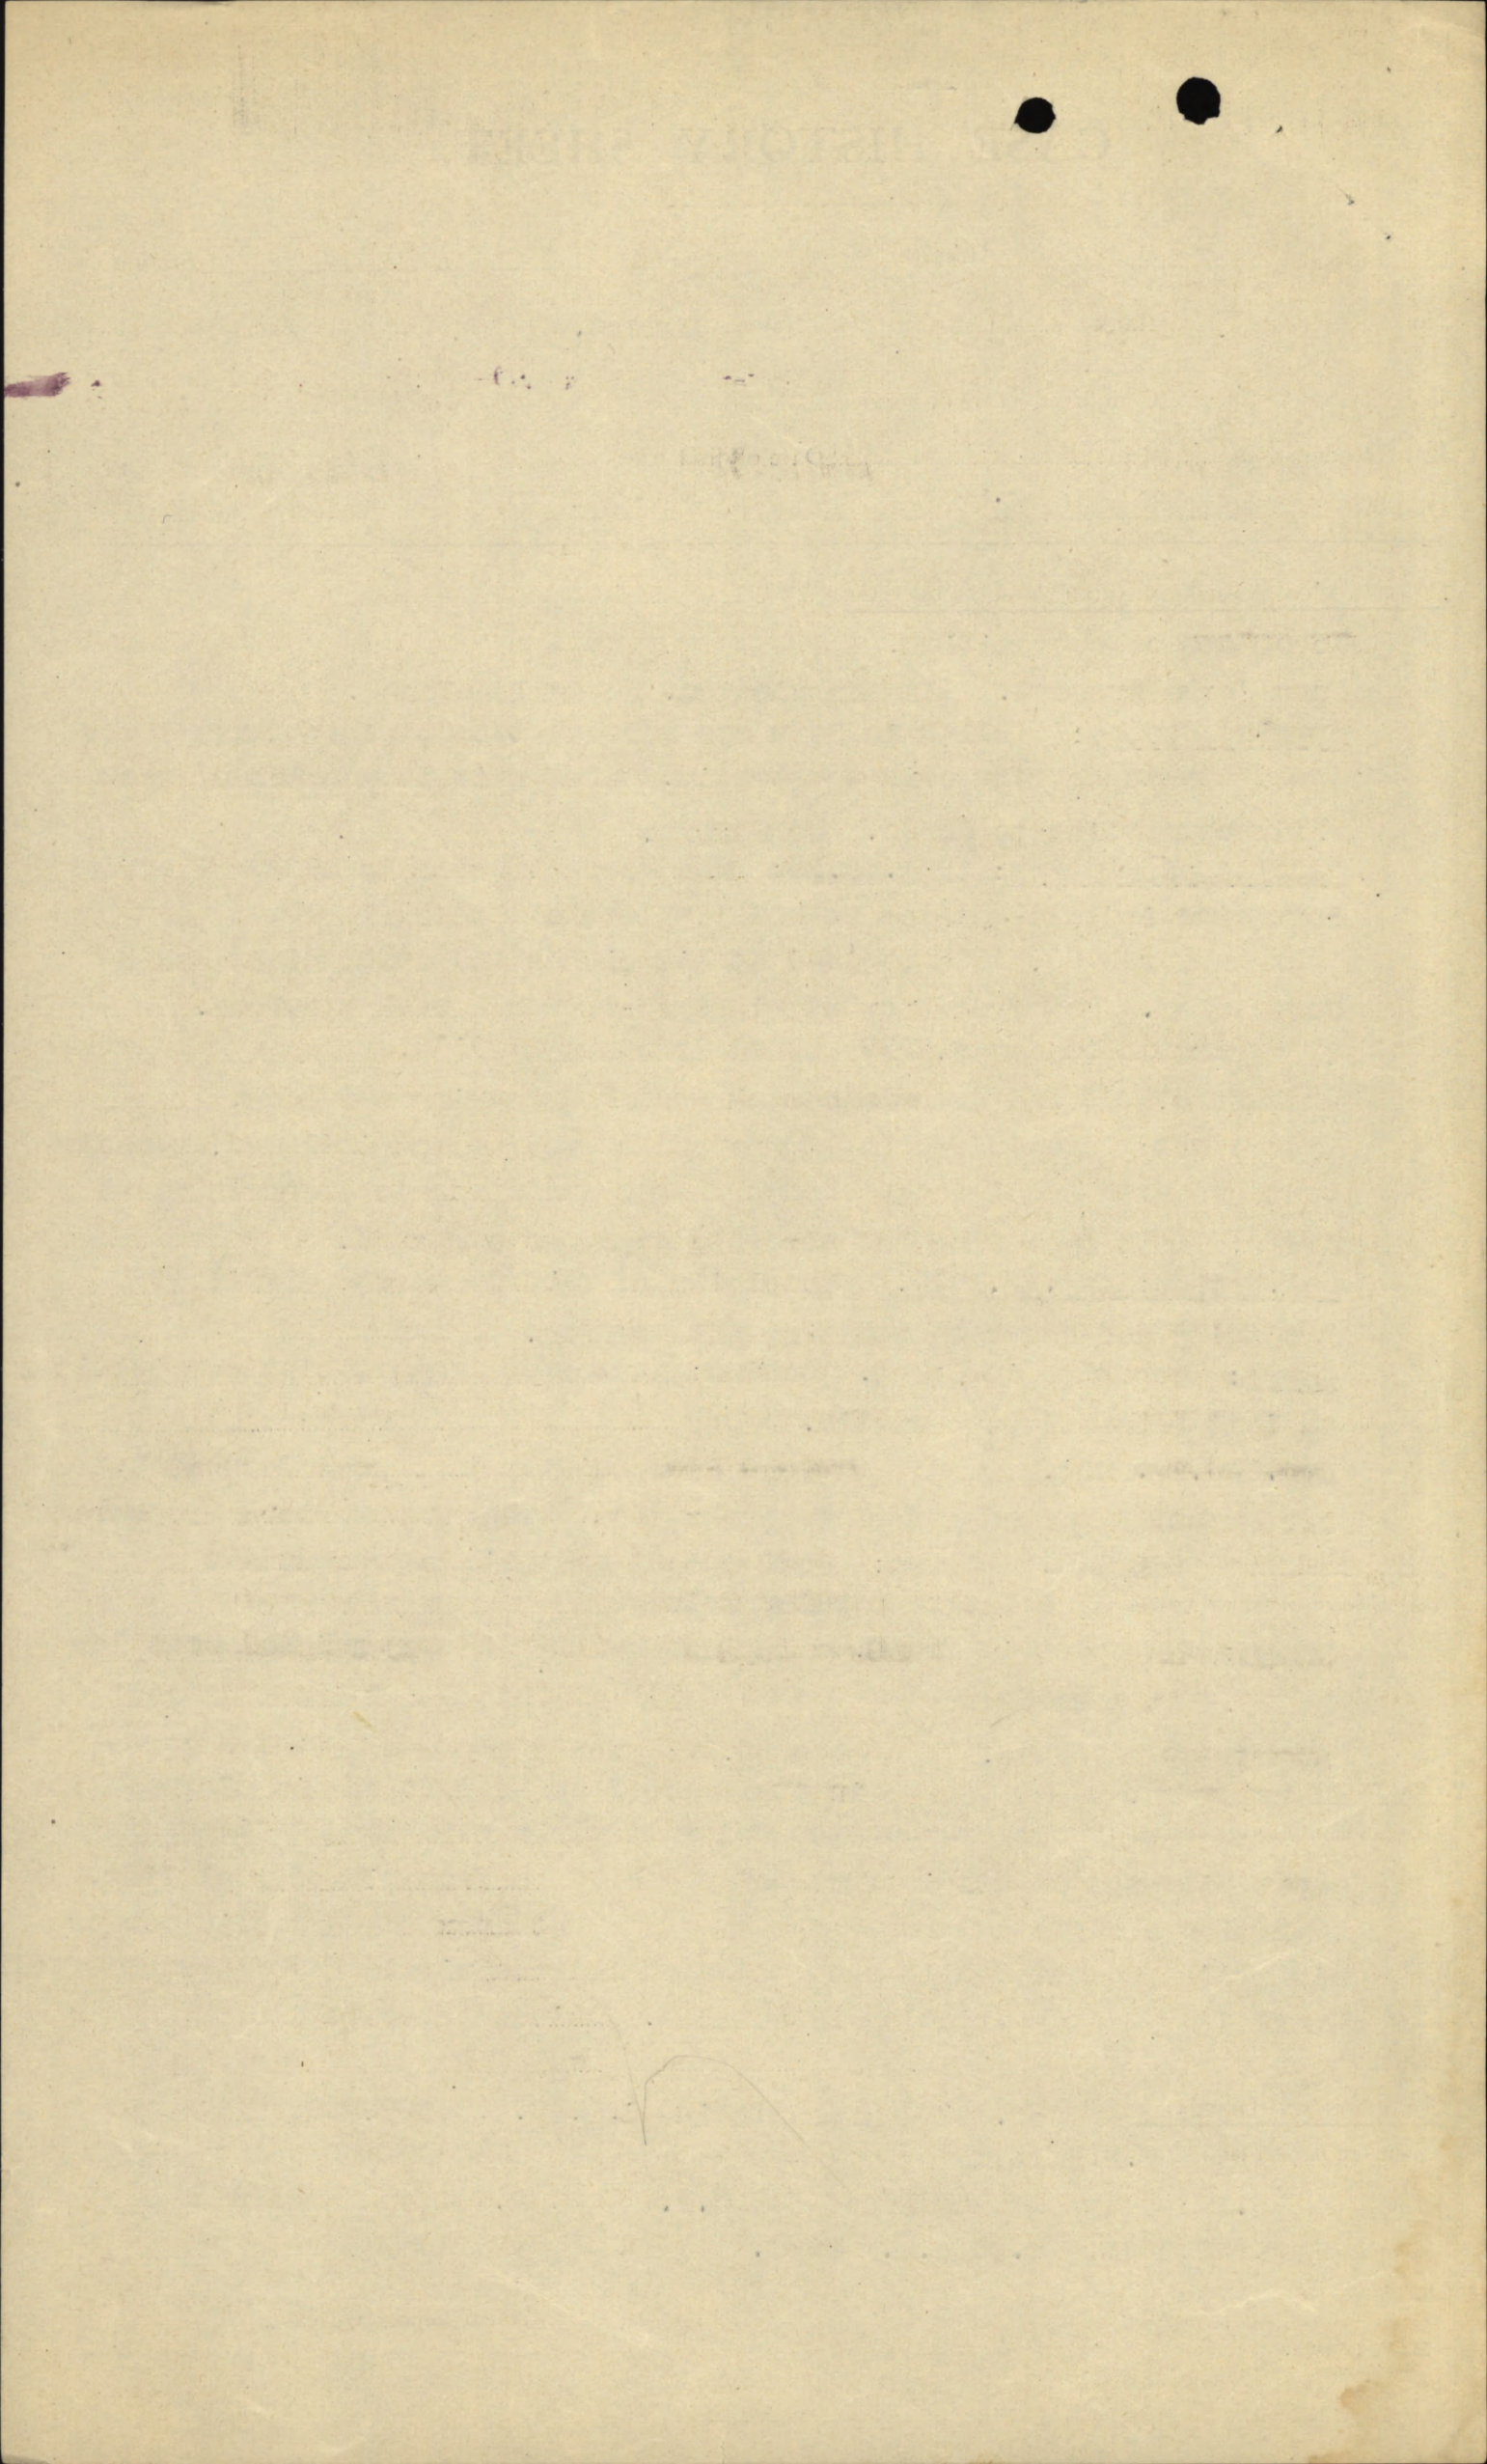

FAMILY HISTORY

842/150. Chest: Soft apical systolic murmur and P2
 (Tuberculosis, mental or nervous diseases.) Relative cardiac dulness
Lungs: Resonant in front. In left axilla few superficial crackles
heard. At left base few moist rales Abdomen: Dulness in left
flank not moveable. August 26, 19: Today shows a definite pleural
friction, ^{pericardial} An 4th space 2 cm to left of mid sternal line,
 (Especially any specific or special form.) over ^{pericardium} percussion below nipple a wavy impulse is visible at
apex situated in 5th intercostal space 10 cm from mid sternal line.
Relative cardiac dulness..... At apex the systolic murmur
is still present, while over the area between nipple and sternum a well
marked ^{pericardial} friction is audible. Blood Pressure 152/86.

CONDITION ON DISCHARGE

Aug. 27. Haemoglobin 15%. R.B.C. 800,000.
 (and disposal made of case.) W.B.C. 12,000.
28.8.19: Transfused blood 400 c.c. 29.8.19. Patient moribund.
Aug. 30, 1919. 2.30 a.m. Died.

Date..... *J. R. [Signature]*

 over liver region. No rigidity, no fluid. Flanks clean. Spleen not
 palpable. Liver as above. Wasserman - Negative. -Over-

Date..... Medical Officer i/c case.

1870

The first part of the year was spent in the
 study of the history of the country.
 I have been very much interested in
 the progress of the nation since
 the war. The people seem to be
 more united than ever before.
 The government is doing a great
 deal of good for the poor.
 The schools are better than
 ever. The churches are
 more active than ever.
 The people are more
 patriotic than ever.
 The country is more
 prosperous than ever.
 The future looks bright.
 I hope to see the
 day when the people
 will be more united
 and more patriotic.
 I hope to see the
 day when the
 government will be
 more just and more
 merciful. I hope to
 see the day when
 the schools will be
 better than ever.
 I hope to see the
 day when the
 churches will be
 more active than
 ever. I hope to see
 the day when the
 people will be more
 patriotic than ever.
 I hope to see the
 day when the
 country will be more
 prosperous than ever.
 I hope to see the
 day when the
 future will be
 bright.

THIS FORM WILL BE USED FOR ALL RANKS
MEDICAL HISTORY OF AN INVALID

INSTRUCTIONS WHICH MUST BE READ BY MEDICAL OFFICERS

- In using this Form the "Instructions issued for the guidance of Medical Officers serving on Medical Boards" issued by the B.P.C. and instructions issued by Militia H.Q., Ottawa, will be carefully followed.
- The Medical Officer in charge of the case is responsible for the proper completion of Sections 1 to 17 of this Form and will obtain the signature of the invalid to the "Statement," page 3. The President of the Board of Medical Officers is responsible for the proper completion of sections reserved for recording the "Opinion of the Medical Board."
- In answering the questions, Medical Officers will carefully obtain and record the invalid's statements concerning his condition. They will distinguish observations made by themselves from hearsay. They will distinctly state the authority for statements not resulting from their personal observation; it must be made clear whether such statements are obtained from the invalid concerned, from witnesses, or from documents, Regimental or otherwise.
- Special care is required in answering question 9. Read the questions carefully. All questions must be answered.
- If space provided under any section is insufficient add another sheet. Such sheets must be initialed by the Medical Board.
- A note will be made of attached papers by the Medical Board under the section "Opinion of Medical Board."
- Under no circumstances may information other than that in sections 7, 8, 9 and 10 be communicated to the invalid, directly or indirectly.
- The nomenclature of diseases must be followed, if possible, as described in "List of Diseases" printed in the order in which they appear in the Annual Report on the Health of the Army, published in London (1915), by Messrs. Harrison & Sons.

STATION Orpington Kent DATE 22.6.19

(stripped)

(d) Colour of hair BROWN (e) Colour of eyes BLUE (f) Identification marks, Scars, etc. None

5. Former trade or occupation Fireman

6. Service (The information should be secured from personal documents, but if documents are not available the invalid's statement may be taken and note must be made to that effect. Periods of service in Canada, England, France or elsewhere should be noted).	Years	Days

STATEMENT.

	PERIODS	
	From	To
Canada	<u>15.4.18</u>	<u>15.5.18</u>
England	<u>15.5.18</u>	
France or other theatres of War		

7. Original disease, or injury (a) ACUTE NEPHRITIS
(b) RELAXATION OF PLANTAR LIGAMENTS

(a) Date of origin 28.3.19 (b) Place of origin (a) ENGLAND
(b) MONTREAL, CAN.

(c) Cause (a) ACTIVE SERVICE CONDITIONS
(b) CONDITIONS OF CIVIL LIFE

8. Present disability— (Here state the exact nature of the disability resulting from the disabling conditions: e.g. (a) Weakness—slight, moderate, marked, etc; (b) Loss, complete or partial, of an organ or member, or of its functions; (c) Necessity for rest of the body, or of some of its parts, for therapeutic reasons; (d) Any other restrictions in choice of occupation.)

(a) (ACUTE NEPHRITIS) Marked weakness, BED CASE
(b) (FLAT FEET) could not walk over two miles before present illness.

9. Present condition— (a) (Before completing this section the invalid should be stripped, and subjected to a thorough physical examination. Important, to be a full description of the present disabling condition, or conditions only. "History" must be recorded in Section 10. Describe all abnormalities, anatomical and functional, contributing to present disability; objective findings to be stated first, then subjective findings.)

A Objective: Looks very pale and pasty. Slight oedema of face. Also has few pustules on face. Diet restricted to milk only. Urine much diminished in quantity—now passing 300 cc. in 24 hrs. Has shown persistence of large quantities of albumen with casts of R.B.C. from the beginning. Vomits frequently. Has defective vision. B.P. 220/140
Eye Specialist Report: R.V. 4/60 = 4/36 W + 2.50 D.S. L.V. 5/60 = 4/36 W + 3.50 D.S.
Hypertopia, albuminuric Retinitis, choked disk
Cpt A.J. Wardlaw
Urine Report (23.6.19) almost colorless acid, sp. gr. 1000 all + Sugar neg. Meas. R.B.C. in Urine. Casts small. Cpt. McKay

Subjective: Says he feels very weak. Has headache and backache. Can't see well. Complains of black spots floating before his eyes. Urinates very infrequently.

B Objective: Both ankles down and feet very flat—non rigid type. Local tenderness over dorsum of both feet.

Subjective: says he has pain in feet most of the time.

(b) Has the invalid now any affection of the following systems, not described in Section 9 (a) above? (Answer Yes or No.—if the answer to any part is Yes, give a brief description of the present condition.)

Nervous System... No Cardio-Vascular System... yes Genito-Urinary System... No
(If pulse rate is abnormal, B. P. will be taken.) (Albumen and Sugar will be excluded.)
Special Senses... yes Respiratory System... No Integumentary System... No
Disturbances of Mentality... No Digestive System... yes Muscular System... No
Osseous and Joint Systems... No Any other general condition... No

Has systolic murmur over third intercostal close to sternum, fading towards the apex and seems to be transmitted a short distance beyond the apex—probably haemic. Second aortic accentuated. Complains of poor vision which is only of recent origin. See specialist's report section 9(a).
Has had infrequent vomiting not due to organic disease of stomach, concomitant with nephritis.

10. (a) History (of the condition referred to in Section 9 (a).)

Documentary: (a) M.C.S. Vomited on March 28th—his supper and had a convulsion same night. Admitted to Ripon 30th March. Had oedema of feet for two days previous to convulsion and nocturnal frequency for a week previous. Evidently uraemic convulsions. From Ripon went to R.C. St. Beuton Apr. 15th 19. When Spavin May 5th 19. Urinalysis not satisfactory or sent to Crispington 14.5.19. Looks pale & puffy. Head neg. B.P. 200-140. No oedema of condition has grown steadily worse and come of disease downwards. On 5.6.19 condition worse. Had on 7.6.19 sweat 24 hrs without urinating—suppression out part of disturbance has risen but always below normal. Condition has improved during last two weeks. No oedema. Kidneys compensating much better. Was on danger line 7.6.19.

Man's statement confirms documentary report. Says he has headache, backache, but no less constant.

(b) acromioclavicular flat feet. On drill but could not do route march statement; says he had flat feet before existing. Says feet are sore

10.—(b) (Here give a complete history, as obtained from invalid, with dates of origin, of any affection from which the invalid, has suffered either prior to, or since enlistment, and not included in Section 10 (a).)

says he had pleurisy when a child, good recovery.

(c) (Here give a description of wounds, scars, and deformities.)

None

11.—(a) Did the disabling condition have its origin before enlistment *(a) no*

(b) If *no*, has it been aggravated by Service? (If aggravated, give a description, as far as it is possible to do so, of the disabling condition at time of enlistment.) *(b) yes*

(a) n. a.

(b) no

12. Was the disability caused, or aggravated; (a) by intemperance, or improper conduct; or (b) by unreasonable refusal to accept treatment? *(a) no*

The regimental documents will be referred to. *(b) no*

(If the answer is in the affirmative, state in percentages, to what extent the patient is incapacitated by that causation or aggravation. In answering this question, conduct sheets should be considered. If treatment has been refused, the circumstances surrounding the refusal should be described on page 4.)

13. What is the probable duration, in months, of the disability or of each of the disabling conditions, if there is more than one? *(a) 6 mos.*

(b) Permanent

14. Treatment (Case reports, general or special, should be secured and attached where possible.)

(a) Hospitalization

(b) Arch supports

15. Is further treatment in hospital, convalescent home, etc., likely to be of material benefit? *(a) yes*

(If the answer is "yes" state nature of treatment required and probable duration) *(b) no*

(a) Six month dietetic & symptomatic treatment *(b) n. a.*

16. Can the former trade or occupation be resumed? *no*

(If not, briefly state why)

17. Recommendations.....

S. P. C.

T. V. Hunter Capt. comd.
Medical Officer by whom the case is brought forward.

STATEMENT OF THE INVALID

(Sections 7, 8, 9 and 10 are to be read to the invalid and either "satisfied" or "not satisfied" struck out).

I, the undersigned, *W. Houst* have heard the description of my disability and present condition read, and am satisfied (or ~~not satisfied~~) with it. (If dissatisfied, statement should follow.)

I complain in addition of *W. P.*

Pte. Darnest Wilfrid Rank.
Signature of invalid examined.

OPINION OF THE MEDICAL BOARD

18. Does the Board concur with the preceding report? If not, give differing opinions, with reasons, quoting the number of the answer criticised.

See concurrence
See eye report
See medical report

19. Is the invalid fit for

- | | | | |
|--|--------------|--------------|-------------------|
| (a) General service, | (Category A) | (Yes or No.) | <i>no</i> |
| (b) Service abroad, not general service, | (" B) | (Yes or No.) | <i>no</i> |
| (c) Home service (Canada only), | (" C) | (Yes or No.) | <i>no</i> |
| (d) Temporarily unfit. | (" D) | (Yes or No.) | <i>yes D.T.C.</i> |
| (e) Unfit for service in Categories A, B and C | (" E) | (Yes or No.) | <i>no</i> |

20. It is certified that the invalid

(a) Does require treatment. (Give the nature of the condition and of the treatment required and its probable duration.)

Acute nephritis - 6 months - observation - special diet

- (b) ~~Does not require treatment.~~
 (c) ~~Should pass under his own control.~~
 (d) ~~Should not pass under his own control.~~
 (Strike out condition not applicable.)

21. It is recommended that the invalid be discharged. (When not for discharge add special recommendation.)

Patent be invalided to Canada

Before signing the President of the Medical Board will read the statement signed by the invalid and differing opinions regarding Sections 7, 8, 9 and 10, as recorded in Section 18, to the invalid and if no change is indicated, will initial the statement. If, as a result of differing opinions regarding Sections 7, 8, 9 and 10 only, recorded in Section 18, the invalid is dissatisfied with the statement previously made, remarks of the Medical Board will be added here.

MILITARY SERVICE ACT, 1917. ORIGINAL
MEDICAL HISTORY SHEET.

IMPORTANT.—If the man's name does not appear upon the schedule of men reporting for service, or if he has not made an application for exemption or a report for service, or, although having made one, he does not know the number, he will be instructed that the copy of this medical history sheet (which will be handed to him) must be attached by him to a report for service or claim for exemption which he may make on application to any Postmaster in Canada, or be sent by him after he has noted upon it the number on the receipt he obtained from the Postmaster to a Registrar or Deputy Registrar under the Military Service Act. In any event the duplicate medical history sheet will be sent by the Medical Board to the District Officer Commanding unless instructions have been given by the latter to forward it direct to a Registrar or Deputy Registrar.

1. Surname DAOUST Christian name Wilfrid
 2. Number of report for service or claim for exemption according to Postmaster's receipt or schedule 114477 DC
 3. Consecutive number on schedule of men reporting for service (if he appears on it) None
 4. Address (including street and number, if any) 376 Plessis St., Montreal, P.Q. Canada

The following are accurate particulars with regard to the above named man as ascertained by the medical examination on the 15th day of April 1918, by the undersigned medical board sitting at Union Ave., Montreal, P.Q. Canada

5. Age as stated 22 Years 5 Months. 6. Apparent age 22 Years 5 Months
 7. Height 5 Feet 3 1/4 Inches. 8. Weight 129 Pounds.

9. Chest measurement { Minimum 31 Ins. 10. Complexion { Eyes Blue
 { Maximum 34 Ins. { Hair Brown

11. Physical development Good { Good
 { Fair
 { Poor 12. Smallpox marks Good

13. Number of vaccination marks { Right arm 1
 { Left arm 1 14. When vaccinated last Good

15. Distinctive marks and marks indicating congenital peculiarities or previous disease

16. Slight defects but not sufficient to cause rejection

The man denies having had { Rheumatism We find no evidence of past { Rheumatism
 { Tuberculosis { Tuberculosis
 { Syphilis { Syphilis
 (Strike out disease admitted or suspected.)

We have examined the above named man in accordance with the C. E. F. Regulations for medical examinations, and he is placed in Category A²
