Statement of Case.

Note.—The answers to the following questions are to be filled in by the Officer in medical charge of the case. In answering them he will carefully discriminate between the man's unsupported statements and evidence recorded in his military and medical documents. He will also carefully distinguish cases entirely due to venereal disease.

9. Date of origin of disability. Not Known.

10. Place of origin of disability. Not Known.

11. Give concisely the essential facts of the history of the disability, noting entries on the Medical History Sheet bearing on the case.

This man says he has not been perfectly well since August 1915. He thinks his trouble dates back to a cold he caught following a soaking he got in the rain whilst in Bivouac at Shorncliffe. A few days later he began to cough and he has been coughing ever since. Ten days later he paraded sick because his cough was not improving. He says he felt all right except for the cough. He had no pain, no expectoration. He was given medicine, but got no better. He went to France in the beginning of October 1915, feeling all right except that his cough was getting worse. He paraded sick about the middle of October. Cough was worse. Was getting wet a good deal and began to have headaches in the afternoon. About four oclock in the afternoon he used to feel "all in" and in the evening he felt feverish. In beginning of November he was getting thin, weak and short of breath, and was expectorating a little. He spat up some blood. M.O. took his temperature and sent him to Hospital. Had a small haemorrhage at clearing station. Was at Etaples five weeks. T.B. diagnosed and sputum positive. Sent to S.M.H. on Dec, 17th. 1915. Prev. history - negative. One sister died of T.B.

12. (*a*) Give your opinion as to the causation of the disability.

Active service

(*b*) If you consider it to have been caused by wounds received or illness contracted (1) in the presence of the enemy (2) on active service, explain the specific conditions to which you attribute it. (*See notes on page 3*).

Continuous exposure to wet and cold in trenches in France.

13. What is his present condition ?

Weight should be given in all cases when it is likely to afford evidence of the progress of the disability.

General Condition - poor. Patients appearance is unfavourable. He is thin, pale, very poorly nourished. Pulse rate increased. Temperature elevated, irregular, 102 in the afternoon at present. Expectoration purulent, about three or four ounces in 24 hours. Sputum contains germs about gaffky VIII. Appetite not very good. Bowels fairly regular.
Chest : Impaired resonance over upper part of right lung, both back and front, but more marked behind. Vocal fremitus more pronounced over right chest. Well marked crepitations over right interscapular area below level of scapular spine.

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as, it is essential that the Members of the Pensions and Claims Board should be in possession of the most reliable information to **enable them to decide upon the man's claim to pension.**

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pensions vary according to whether the disability is attributed to wounds or injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service. It is therefore essential when assigning the cause of the disability to differentiate between them (*see* Article 591 to 598 of the Canadian Pay and Allowance Regulations as amended G.O., 57, May 1st, 1915).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

20. (*a*) State whether the disability is the result of injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service.

1. no
2 yes

(*b*) If due to one of these causes, to what specific conditions do the Board attribute it?

23. If not permanent, what is its probable minimum duration?

not applicable

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present?

—
total

In defining the extent of his inability to earn a livelihood, estimate it at $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, or total incapacity.

25. If an operation was advised and declined, was the refusal unreasonable?

not applicable

26. Do the Board recommend

(*a*) Fit for duty? no

(*b*) Fit for light duty? no

(*c*) Invalided to Canada? no

(*d*) Discharge as permanently unfit? yes

This soldier, who is suffering from Phthisis, is running a high temperature (101–2°) at night, and is weak – is hardly able to travel to Canada at present.
