XI. Action Taken Date of Action

Follow-up

PSYCHIATRIC EXAMINATION 5-8-42.

Family History:

His father can read and write and has had fairly good jobs. His mother can also read and write. There are 3 girls and 5 brothers in the family and all canread and write.

Personal History:

He went to school off and on until the age of 14. He would stay at home on the farm rather than go to school. He knows all the letters of the alphabet but can read only a few words. He didn't want to learn when he went to school. He spent most of the time, since leaving school working on the farm and in the saw-mill. He converses quite well. He denies ever being hallucinated and does not express any delusions. Slight tremors in his fingers and eyelids. He is in fairly good physical condition and he is quite enthusiastic about the Army. He has a fairly good idea about what is going on in the world and ordinary things one should know. He has a fairly good appearance and pays good attention answering questions clearly and concisely.

Diagnosis:

This man appears to have considerably more intelligence than His "M" score indicates.

Recommendation:

In my opinion this man is a suitable candidate for the Special training Centre at North Bay.

SDW/EHF PSYCHIATRIC EXAMINATION Aug. 4th, 1942.

BISSON, Eugene C-614193, Age: 32. "M" Score 25.

FAMILY HISTORY:- His father can read and write and has had fairly good jobs. His mother can also read and write. There are 3 girls and 5 brothers in the family and all can read and write.

PERSONAL HISTORY:- He went to school off and on until the age of 14. He would stay at home on the farm rather than go to school. He knows all the letters of the alphabet but can read only a few words. He didn't want to learn when he went to school. He spent most of the time, since leaving school working on the farm and in the saw-mill. He converses quite well. He denies ever being hallucinated and does not express any delusions. Slight tremors in his fingers and eyelids. He is in fairly good physical condition and he is quite enthusiastic about the Army. He has a fairly good idea about what is going on in the world and ordinary things one should know. He has a fairly good appearance and pays good attention answering questions clearly and concisely.

DIAGNOSIS:- This man appears to have considerably more intelligence than his "M" score indicates.

Recommendation:- In my opinion this man is a suitable candidate for the Special Training Centre at North Bay.

CONSULTANT'S REPORT

Hospital M.I.R. #3A D.D. Report No.

This soldier is an alert man who is friendly and co-operative. He states that he feels well, appetite is good and would sleep well if it were not for a pump which is near his barracks and makes a noise at night. He feels "nervous" to a limited extent in that if he sees a fight he gets shaky. He was seen by a psychiatrist in Aug 42 and sent to E.B.T.C. at Jolliette, Que whenehe did poorly. At present he can wirte his name but is otherwise unable to write; can read a few words in French and English but nothing very complicated. He attended school from 8 to 14 years of age. Attendence was irregular and he never got begond the 1st grade. Before enlisting he worked in a saw mill.
"M" score is 25 (25)
IMPRESSION: This soldier who is practically illiterate presents no evidence of severe emotional disturbance. His intelligence would seem to be on the lower limits ofdull normal. Because of his freindly alert manner one tends to get a better impression of his abilities than is perhaps justified.
