PART III - Continued

6. Appraisal and Recommendation

Milligan received University training in Chemistry and Chemical engineering. He has had experience as an electrical engineer (design of vacuum tubes, 2 yrs), as a chemical engineer (assayer, 6 mos), and as an industrial engineer (job analysis, labour standards & incentives etc., 2 yrs).

In the Army his chief employment was as Technical Staff Officer in R.C.E.M.E., dealing with maintenance and development of mechanical and Armoured equipment. He obtained the rank of Acting Major, which however he had to relinquish because of medical reasons.

On the completion of medical treatment, he expects to seek employment in one of the three fields in which he is already experienced - electrical, chemical or industrial engineering. He conveys the impression of being a highly competent man in all of these branches of engineering.

Major Donald Stewart MILLIGAN

Dear Madam:

I am directed to inform you that according to advice received from Overseas, the above-mentioned member of the Canadian Army, is en route to Canada on board a hospital ship.

On arrival, he will be despatched to his home District Depot, unless a change is necessary due to medical or personal reasons. While no definite promise can be given regarding disembarkation leave, it is the general practice to grant leave provided personnel do not require immediate hospital treatment.

It is regretted that facilities do not permit you to proceed to port of disembarkation to meet the ship.

Yours truly,

H
