it is necessary that certain information regarding the deceased and his relatives should be furnished the Estates Branch. You are asked therefore to read the enclosed memorandum before completing pages 2 and 3 of this form. The particulars required are to be carefully filled in and the Declaration on page 4 should then be signed in the presence of a Clergyman, Priest, Local Magistrate, Commissioner for Oaths, Notary Public or a Commissioned Officer of any of His Majesty's Forces who should be asked to complete and sign the Certificate. This form should then be returned to the above address.

If there is insufficient space for complete particulars to be given opposite any question on pages 2 and 3 of this form, the space under "additional remarks" on page 4 should be used.

MEDICAL INSTRUCTIONS TO PERSONNEL ON LEAVE IN CANADA

1. Personnel on leave or pass or otherwise absent from their parent unit who require medical attention are to report to the nearest R.C.A.F. Medical Officer. In cases of urgency when the services of an R.C.A.F. Medical Officer are not available, report to:

(a) An R.C.A.M.C. Medical Officer,

(b) A Medical Officer of the Dept. of Pensions and National Health, or

(c) A civilian medical practitioner,

in that order.

2. When it is necessary to call in other than an R.C.A.F. Medical Officer, arrangements are to be made to notify the R.C.A.F. Medical Officer, if one is located in the vicinity, in order that he may assume charge of the case. Immediate action is also to be taken to notify the individual's Commanding Officer in the event that the illness is of serious nature and likely to delay reporting to the unit on termination of leave.

3. All accounts for attendance upon personnel on leave rendered by civilian hospitals or civilian practitioners are to be forwarded in triplicate to the nearest administrative centre of the Dept. of Pensions and National Health for payment.

4. Personnel who, while on leave, are in contact with a case of infectious disease are, on the termination of their leave, to report to their Station Medical Officer before they enter any barrack block, mess or other building on the station.

WILLS

1. The particulars of the next-of-kin should always be carefully inserted in the Form on page 1 of this Book, but the Officer or Airman must understand that the entries made there have no legal effect with respect to the disposition of his estate in the event of his death and therefore do not relieve him from the necessity of making a Will. Unless an Officer or Airman duly makes a Will, his estate is dealt with in the same manner as that of any other person who dies without leaving a Will, and not only may the relative or person desired or intended to be benefited receive little or no share of the estate but the distribution thereof is delayed until such of the next-of-kin as may be legally entitled can be located. Therefore, though his estate may consist of no assets other than the amount of pay and allowances at credit and the belongings he has on his person or in camp, it is urgent that he make a Will which, when completed, is left with his Commanding Officer for transmission to the Records Office for safe custody and in the event of his death is forwarded firstly, to the Estates Branch, Department of National Defence, Ottawa, for administration and distribution of the Service estate, and secondly, if other assets (including real estate) make it necessary, to the Executor named in the Will.

2. The Officer's or Airman's Will should preferably be made out on the Will Form—R.C.A.F. R. 60 (English) or R.C.A.F. R. 60A. (French)—provided for that purpose and on which are also printed a number of helpful instructions. These Forms are obtained through the Commanding Officer of each Unit. A separate sheet of paper may be used but in such case the general form of the Will as shown in the Form R.C.A.F. R. 60 or R. 60A. should be carefully followed. The Officer or Airman will date the Will and at the bottom of it sign his name in the presence of two witnesses who at the same time in the presence of each other and of the Officer or Airman will also sign their respective names. If the Officer or Airman cannot write, he will make his mark in the place in the Will where his signature would ordinarily appear, and immediately above their signatures on the Will the witnesses will write a memorandum as follows:—"The above Will has been first duly and audibly read over to this Officer or Airman when he appeared

to understand it and made his mark hereto in our presence as aforesaid". In such cases, however, it is recommended that the guidance of the Officer's or Airman's immediate superior Officer be obtained.

3. The Short Form of Will (see pages 15 and 16 of this Book) may be used by an Officer or Airman on Active Service but it must be entirely in his own handwriting. It is pointed out, however, that under the laws of some of the Provinces of Canada, such a Will is ineffective as to real estate. Therefore an Officer or Airman having a Canadian domicile and owning real estate should use the Will Form R.C.A.F. R. 60 or R. 60A., and appoint therein a responsible executor. An Officer or Airman having a domicile out of Canada should not use the Short Form on page 16 because it may not comply with the law of such domicile.

4. No person who receives any benefit under a Will can be a witness. If a person to whom an Officer or Airman intends to give any part of his estate is a witness of the Will, he will not be allowed to receive the intended gift. He may, however, be appointed an executor.

5. When making a Will it is not desirable that alterations be made in it. If, however, alterations are made by the Officer or Airman in his Will, he and the two witnesses must write their initials in the margin opposite the alterations. Any changes in the provisions of a previously made Will can always be made by a new document called a Codicil which should refer to the previously made Will and then state the changes desired, and be dated and signed and witnessed in the same manner as the Will itself.

6. A completely new Will can at any time be made and in such case it revokes, or cancels, any Will of earlier date. The laws of all the Provinces of Canada except one, and of most English speaking countries provide that marriage after the date of a Will revokes that Will. Therefore, an Officer or Airman, immediately upon his marriage, should make a new Will in order that, in the event of his death, his estate may be distributed in accordance with his wishes as shown in his Will.

7. The Will of an Officer or Airman on Active Service is not invalid by reason that at the date it was made he was under the age of 21 years.

An Officer or Airman who has made a Will before his enlistment, is recommended to inform his Commanding Officer where such Will has been deposited and the Commanding Officer shall upon receipt of such information forthwith complete the following certificate and despatch the same to the R.C.A.F. Records Officer.

Before embarkation, each Officer or Airman is recommended, particularly those who have real estate, to consider the necessity for executing a document appointing some person or Trust Company his Attorney to manage or otherwise deal with real estate during his absence from Canada; also to review his affairs in the light of any changes that may have occurred since the date of his last Will and, if desirable, make a formal Will and inform his Commanding Officer thereof as indicated at the top of this page, or make a Will on R.C.A.F. R. 60 or R. 60A., and hand it duly completed to his Commanding Officer for transmission to the Records Officer concerned for safe custody.

The Officer receiving such Will shall complete the following certificate:—

SHORT FORM OF WILL

(Write Will on next page)

If an Officer or Airman on active service, or under orders, for active service, who has not previously made a Will, or who having previously made one, wishes to cancel it in its entirety or make some change in the disposal of his property, he may do so on the next page. **It must be entirely in his own handwriting and must be signed by him and dated.** The full names and addresses of the persons whom he desires to benefit, and the sum of money or the articles of property which he desires to leave to them, must be clearly stated. **The writing of the name of a person on the next page without stating what he or she is to receive is of no legal value.**

The following is a specimen of a Will leaving all to one person:—

In the event of my death I give all my estate to my mother, Mrs. Sheila Griffin, 711 Victory Street, Toronto, and appoint her my executrix.

(Signature) GEORGE GRIFFIN,
Sgt., R. 12345,
Date October 10th, 1942. R.C.A.F.

The following is a specimen of a Will leaving gifts to more than one person:—

In the event of my death, I give $10.00 to my friend, Miss Rose Smith, of No. 1, High Street, London, and I give $5.00 to my sister, Miss Margaret Griffin, 711 Victory Street, Toronto, and I give the remainder of my estate to my mother, Mrs. Sheila Griffin, 711 Victory Street, Toronto, and appoint my mother my executrix.

13th. August, 1944.

Dear Mrs Brown.

Will you please accept the sincere sympathy of myself and the Squadron in your sad bereavement.

Your son was carrying out an operational flight as Captain of aircraft against the Battle Area in Normandy on the night of 8th/9th. August, 1944. It appears that they reached their objective and were returning to Base when, in the vicinity of Newark, Nottinghamshire, England, one of the aircraft engines caught fire. He ordered the crew to bale out and gallantly remained at the controls in an effort to keep the aircraft under control sufficiently long to enable them to leave the aircraft by parachute. After five members of the crew had left, but before your son and the Flight Engineer, Sergeant Corless, could do so, the aircraft went into a steep dive and on impact with the ground there was an explosion. There is no doubt whatever that your son was killed instantaneously.

It is most sad that your son should lose his life in this tragic accident. Although he and his crew had been with us only a short time, I was very favourably impressed and was sure they would have proved an excellent crew.

Your son was interred at the Royal Air Force Regional Cemetery, Stonefall, Harrogate, Yorkshire, on 12th. August, 1944, in Grave No. A. 12, Section E, with fully Military Honours. Photographs of the ceremony will be forwarded on to you as soon as they are received here.

His personal effects will be looked after by R.A.F. Central Depository, Colnbrook. You will be hearing from the R.C.A.F. Headquarters, Ottawa, on this subject in due course.

Once again my very deep sympathy in your sad loss.

Yours sincerely,

J.R.St.J.

Grand Mere, P.Q.

Dear Mrs. Brown:

It is a privilege to have the opportunity of sending you the Operational Wings and Certificate in recognition of the gallant services rendered by your son, Flying Officer G.C. Brown.

I realize there is little which may be said or done to lessen your sorrow, but it is my hope that these "Wings", indicative of operations against the enemy, will be a treasured memento of a young life offered on the altar of freedom in defence of his Home and Country.

Yours very sincerely,

The Navigator states:

Whilst returning from operations as briefed on 8/8/44 at approximately 0050 hours, near Newark, the Captain was heard to order the Flight Engineer to feather the starboard outer and restart the starboard inner engine. The starboard outer engine was seen to be on fire. It was assumed by this that immediate feathering action has been taken prior to this, and had been applied to the wrong engine. Immediately after the feathering order, the aircraft began to dive at about 260 and the captain ordered the crew to bale out immediately. The remainder of the crew, with the exception of the Flight Engineer, made their way to their parachute exits. The A/B and Nav, finding it impossible to go out through the front hatch because the Flight Engineer obstructed the way, made their way back to the main door. When all five crew members had gathered at the main door, the aircraft was flying straight and level, at approximately 3000 feet. Intercommunication was made again with the Captain, and he repeated the order to bale out. No other conversation was heard over the intercomm. As we baled out, the fire in the starboard outer had gained a strong hold and, to the best of my knowledge, the airscrew was still revolving. Within forty-five seconds of the first bale out, the aircraft was heard to crash. The MU/G, last to leave, states that the aircraft was in a steep dive as he baled out. All five landed safely.

- -

Owing to complete destruction of aircraft by bomb, explosion no investigation can be made. It is thought that although the S.I. engine was feathered in error, in allprobability the fire extinguisher for the Starboard Outboard was operated, and as this would have little effect with the propellor running at Normal R.P.M. - nothing was then available to control the fire.

It seens that the S.O. Propellor never feathered, and it is likely that fire, or engine break up damage may have fractured the feathering line and that attempts at feathering fed oil under pressure to the fire.

Due to the fact that the engine had run normally for approximately four hours, the cause of the fire is thought to be due to a sudden loss of oil and may well have been another case of a fractured oil pipe between compound relief valve and dual drive unit. This engine did NOT have a modified pipe (Merlin Mod. 808) fitted, the reason for this being that the supply rate of modified pipes is so slow as to be almost stationary; it can be stated however that approximately fourteen cases of fracture occur monthly.

Para 12. (C. cont'd.)

C. After the fire started valuable time was lost when the F/E feathered the wrong engine. By the time this was corrected it was too late to extinguish the fire. The pilot was inexperienced, nevertheless he should have been aware of orders forbidding the practice of diving an aircraft to attempt to extinguish a fire. By the time the fifth member of the crew had baled out, the aircraft was probably too low for the Captain and F/E to follow.

7. We (I) have examined the following aircraft, engine, flight authorization book, and pilot's flying log books and also Form 700 and have ascertained :

Description of book and form	Remarks, including material facts supplementing or confirming evidence of witnesses and whether all necessary inspections were carried out prior to the flight.
AIRFRAME LOGBOOK	- Logbook in order
ENGINE LOGBOOK	- Logbook in order
Flt. Authorisation Book	- Correctly authorised by Flt. Com. and initialled by pilot
PILOTS LOGBOOK	- LOGBOOK IN ORDER
FORMS 700	- All necessary inspections prior to flight were carried out and correctly signed for.

NOTE.—If any of these Documents have not been examined, this must be stated and reason given.

8. We (I) have / ~~have not~~ visited the scene of the accident before / ~~after~~ aircraft was / ~~were~~ removed and have found the following material facts :

That the bombload exploded on impact and so completely disintegrated the aircraft that no material facts could be gained from examination.
There is no evidence that at the time of the crash the occupants were attempting to use their parachutes. In view of total disintegration no special arrangements were necessary for guarding special equipment.

9. We (I) have been unable to obtain the evidence of the following material witnesses :

Name	Rank	Unit	Reasons precluding obtaining of evidence	How concerned with accident

10. **CONCLUSIONS.** Under this Heading the following should always be included :

(a) Brief description of the accident and its attendant circumstances.
(b) Diagnosis of cause or causes including all contributory factors.
(c) Recommendations, if called for by the convening authority.

(A) F/O Brown and crew took off at 2118 hours on an operational sortie and evidence shows that no engine or airframe trouble was experienced until approximately 0100 hours when on return journey. First indication of trouble was pilot's order to Flight Engineer to feather starboard outer and re-start starboard inner. At this point starboard inner was feathered and starboard outer was on fire.
Height was 9000 feet and the aircraft commenced to dive. Pilot order crew to abandon aircraft. All crew members except pilot and flight engineer left their stations and made their way aft to the main entrance door. At this stage the aircraft had regained its normal flight attitude at approximately 3000 feet. Pilot confirmed to rear gunner to abandon aircraft and the five crew members did so by which time the aircraft was again diving. The aircraft struck the ground and on impact the bomb load exploded.
(B) Initial cause of accident was fire in starboard outer engine.
(i) From evidence and examination of crash, cause or origin cannot be established.
(ii) First discovered by pilot or flight engineer.
(iii) The action taken was incorrect, the starboard inner was feathered instead of the starboard outer. There is no evidence to show that the correct graviner switch was operated.

Contributory causes.

(a) Wrong engine was feathered either by Flight engineer or Pilot.

(b) With a 15,000 lbs. bombload and two engines on one side giving no power, pilot was unable to prevent aircraft diving so losing valuable height.

(c) Failure to re-start starboard inner engine.

(d) Although the pilot managed to pull out of the first dive, the action of the five members of the crew leaving from the rear, together with the weight of the bomb-load and two dead engines, probably upset the trim sufficiently to precipitate the final dive.

REPORT OF COMMANDING OFFICER File Ref. No. EW/C5562/18/P.1

There appears to be little doubt that this accident was due to loss of control following fire in the starboard outer engine. The starboard inner was feathered by mistake and this further precipitated loss of control. It is evident that the feathering drill of the crew was poor and had it been good the accident would probably not have occurred.

Signature of C.O. (Sgd.) W.C. Sheen G/Cpt.

Date of signing 20th August, 1944 Commanding R.A.F. Station ELSHAM WOLDS.

REMARKS OF GROUP COMMANDER File Ref. No. IG/107/753/28/Air Trg.

I am in general agreement with the remarks of the Officer Commanding, and further consider that had the crew discipline and crew drill been of a higher standard all of the crew could have baled out successfully.

As oil shortage is probably the most common cause of fire in the air it seems reasonable to suppose that a reliable low level oil indicator warning device could be used with great advantage.

Signature (Sgd.) E.A.B. Rice A/V/M.

FORWARDING REMARKS OF COMMANDER-IN-CHIEF File Ref. No. 6769

Remarks of Group Commander are agreed. The provision of an oil low level indicator and a coolent low level indicator has been agreed as a requirement for this Command.
