FINDINGS OF THE BOARD OF INQUIRY

Having heard the evidence produced, the Board finds:-

(a) That Mr. John C. Short, Commissioned Engineer, R.C.N.V.R., O-66770, went ashore sometime before 2400, ship's time, on the evening of the 31st May, 1944, at which time he was sober and normal, and returned on board without anyone seeing him, at sometime shortly after midnight.

(b) That he had removed his clothing and was ready for bed when apparently he had a heart attack, which caused him to fall on his face on the deck in his cabin, unconscious.

(c) That he was heard to fall by Ordinary Seaman Charles T. Aukland, who called Chief Motor Mechanic Robert M. Greenleese, and that they placed Mr. Short on his bunk still unconscious, under the impression that he was under the influence of liquor, and that all that was needed was a night's sleep with fresh air, which latter they provided by opening the port-hole and leaving his cabin door partly open.

(d) That his pulse was taken and showed 60, and that he was red in the face when found, and was still unconscious after being placed in his bunk and during the time he was vomiting, indicating that his condition was probably due to a heart attack rather than the effects of alcohol. The evidence shows that he had, on occasions, mentioned having heart trouble, and that he had complained earlier on the day before his death, of a condition which he thought was indigestion.

(e) That the reason neither Chief Motor Mechanic Greenleese nor Ordinary Seaman Aukland called a Doctor when they saw his condition, was that it did not occur to either of them that it was anything serious.

(f) That Mr. Short was next seen by Chief Engine Room Artificer (M) McCormack and Chief Motor Mechanic Greenleese at about 0830, ship's time, on the 1st June, at which time he appeared to them to be dead, and that they reported the fact to the Executive Officer, who reported to the Commanding Officer, who reported to the N.C.S.O. and to the Medical Officer.

FINDINGS OF THE BOARD OF INQUIRY (CONTINUED)

(g) That no evidence was available as to where Mr. Short went or what he did during the period he spent ashore in the late evening of the 31st May, 1944.

(h) That Mr. Short was of good character and sober habits and, therefore, having gone ashore in a sober condition, it is extremely unlikely that he could have returned on board, after so short an interval, in an intoxicated condition.

2. After due consideration of the evidence as summarized above, the Board is of the opinion that Mr. John C. Short, Commissioned Engineer, R.C.N.V.R., O-66770, died of natural causes in the early morning hours of 1st June, 1944, in his cabin on board H.M.C.S. "NORTON" at Quebec, following a heart attack from which, in all probability, he never regained consciousness, although there was no definite evidence adduced before the Board to show the exact cause of death. Further, that there was nothing in the evidence to show that anyone was guilty of negligence in connection with his death.

3. It will be noted that there is some confusion in time shown by the evidence of the various witnesses. In the opinion of the Board this is not material. Ship's time was Atlantic Daylight Saving Time, and Quebec time was Eastern Daylight Saving Time. This, and the fact that no member of the crew of H.M.C.S. "NORTON" had any reason to pay particular attention to the time, probably accounts for this discrepancy.

As Engineer's Officer of these ships I have built a record of efficiency, careful management of the Engine Room Departments and by personal conduct and example have instilled into a host of new entries the qualities necessary to succeed in their new calling.

With this service record and years of experience of ships and shipbuilding behind me, I now approach you for further consideration.

I hereby submit to you my application for a Commission as Engineer Lieutenant, R. C. N. V. R., and trust that this will receive your favourable consideration.

May I express my very sincere sympathy with you in your bereavement.

Yours faithfully,
