(OVER)

NOTE

(1) Example: I, John Charles Brown, of the City of Ottawa, County of Carleton, Province of Ontario, Mechanic.

(2) If only one beneficiary is named, complete as follows: I give, devise and bequeath unto:

(a) my wife

(b) Mary Brown

(c) 26 Cherry Ave., Ottawa, Ont.

(d) all my estate.

If more than one beneficiary, set out in clause 2 (d) what each is to receive, such as:

"my wife, Mary Brown, 26 Cherry Ave., Ottawa, Ont. **$100.00**

and my household goods and effects."

"my mother, Ethel Brown, 480 Yonge St., Toronto, Ont. **$100.00"**

"my friend, John Smith, 60 LaSalle St., Winnipeg, Man. **$100.00"**

and any personal gift, if desired.

If any specific gifts as above have been made, the testator should name in Clause 3 the person or persons to whom he desires to give the balance of his estate, such as "my wife, Mary Brown, 26 Cherry Ave., Ottawa. Ont., the balance of my estate" or "my mother, Ethel Brown, and my father, George Brown, of 480 Yonge St., Toronto, Ont., the balance of my estate in equal shares or in the event that one of them dies before me, then all to the survivor of them".

(3) Failure to appoint an executor or an executrix can only result in additional expense in the settlement of the estate in question. You are, therefore, strongly urged to make such an appointment. A beneficiary under the will may be appointed executor or executrix. It is recommended, however, that you avoid appointing as executor any person on or likely to be on Active Service.

(4) **Do not omit to date the will.** You are to **sign** the will with your usual signature in the presence of **two witnesses,** each of whom must immediately thereafter, and in your presence, sign his or her name and insert his or her address and occupation in the place provided. No person who receives any benefits under the will should act as witness. It is preferable, though not essential, that the witnesses be persons not on Active Service.

(5) Any additions or alterations to this Will must be initialled by the Testator and both Witnesses.

GENERAL

The laws of all the provinces of Canada, except one, provide that marriage subsequent to the date of the will revokes that will. Therefore, an officer or airman, immediately upon his marriage, should make a new will in order that, in the event of his death, his estate may be distributed in accordance with his wishes as set out in his will.

To be completed only by personnel who have previously executed a Will.

STATEMENT OF LOCATION OF WILL

I hereby certify that I have previously made a will, which is now located at #7 M.D.

24/6/41 #3 M.S.B.

I hereby declare that I have had no illness since my last M2 exam, nor do I wish to change any statement in my original M2 report.

Completed 4 years High School at 18. Worked for insurance company four years, firs as accounting clerk and later as cashier. Left to join R.C.A.M.C. as private. Had want ed to join RCAF but decided to join R.C.A.M.C. in order to avoid further worry to family, his brother in R.A.F. having been killed in Nov/39. Later joined RCAF. Wants t to be a pilot.

Alert lad if average intelligence in this course. Shows good initiative. Responds quickly. Appears stable and very well adjusted. Has good self confidence and good attitude of responsibility to work.

Gentlemen:- Re: Clifford Hammond

The above mentioned young gentleman has been in the employ of this Company as a Clerk for the past four years, during which time his services have been very satisfactory. He is now desirous of enlisting as a Pilot in the Royal Canadian Air Force and I have no hesitation in recommending him to your good graces as a fit and proper person for such a post.

We are very sorry indeed to lose Mr. Hammond as we feel that his future with this Company is a very bright one. He has a fine Background educationally and his character is beyond question, and I believe him to be medically fit.

Yours very truly,

Dear Sirs:

John Clifford Hammond, aged 22, received his education at Greenshields School, Herbert Symonds and West Hill High School, from which I understand, he holds his School Leaving Certificate.

Since leaving school he has been employed with the Manufacturers Life Insurance Company's branch office in Montreal.

I have known Mr. Hammond for some years and can vouch for his honesty and ability. His brother was late Flight Lieutenant W.I. Hammond of the Royal Air Force who was killed in November 1939, while on Active Service.

Should there be any further information which you would like in this connection I should be glad to furnish it to you.

Yours truly,

J.A. Hughes.

This is to certify that Mr. J. Clifford Hammond was a pupil in good standing at West Hill High School from September 1932 until June 1936. In the school year 1935-36, Mr. Hammond was in the Eleventh year, and wrote the High School Leaving Examinations in June 1936, for which he received his High School Leaving Certificate from the School and also from the Department of Education of Quebec.

I have known Mr. Hammond for the past eight years, and do not hesitate to recommend him. Concerning his character and ability, I have only the most favourable comment to make.

FINDINGS: (Pursuant K.R. AIR) 720)

1. That J.93622, P/O J.R. Hammond, died at Vernon Military Hospital on 25th April, 1945, as a result of injuries received in an automobile accident on April 23rd, 1945, at near Vernon B.C.

2. P/O Hammond was not on duty at the time he sustained his injuries. He was on leave pending retirement.

3. P/O Hammond was to blame for the accident having occurred in that he drove a motor vehicle at an excessive rate of speed after having drunk intoxicating liquor.

4. W.A.C. Administrative Unit was advised on April 24th of P/O Hammond's admission to Hospital (Exhibit "A") and on April 26th of his death (Exhibit "B") yet apparently the then C.O. of the Unit failed to initiate forms R.78A and to order an Investigation.

DECISION:

1. APPROVED

Date: 22 Jan. 1946

FIRST WITNESS:

The First Witness on being called states:

I am C.8989, F/L W.E. Ellis, Adjutant, Western Air Command Administrative Unit.

I produce herewith a Signal received from Vernon Military Hospital advising of the admission of P/O J.R. Hammond, (Signal marked Exhibit "A"). I also produce Signal received from Vernon Military Hospital advising of the Death of this Officer.

On examining the relavent files, I find that the usual casualty signals were dispatched but that the C.O. of this Unit, at that time, apparently failed to raise and distribute Form R.78A and to order an Investigation concerning the death of this Officer.

Upon examining records at W.A.C. H.Q., I find that at the time of his death, P/O Hammond was on leave with pay pending his retirement, which had been approved.

CASE HISTORY SHEET

Vernon Military Hospital — P/O J.R. Hammond

Admitted 23rd April , 1945 — Expired 25th April, 1945

Final Diagnosis:

(1) Gas Gangrene Abdominal Wall(0149) (2) Rupture Small Bowel (1729) (3) Retroperitoneal Hematoma (1729) (4) Herniation into Abdominal Wall (1708) (5) Died of Injuries (2042)

Complaint: Injury to abdomen in car accident.

Patient was admitted following a car accident, complaining of pain in left side of abdomen. He was in a moderate degree of shock with restlessness and pallow.

Examination: Temp 98 Pulse 120 Resp 20 B.P. 112/70

Small contusion of forehead, left side.

Chest: clear

Abdomen: A large soft mass extending from left flank downwards and medially to mid-line just above and parallel to iliac crest. The mass was tender, soft and resonant to percussion, but quickly became firmer, dull to percussion and had the appearance of a hematoma of the abdominal musculature. The left rectur was guarded and firm to palpation. Palpation of right side was not tender or rigid. There was no referred pain on palpation right side and no tenderness. Rectal examination was negative. Catheter specimen of urine showed no gross or microscopic blood. Capt. Barber, surgical specialist, for Force Polar Bear, was called and examined the patient about one hour after admission.

2400 hrs.: Temp 98 - Pulse 100 - Resp 20 - B.P. 120/72

Patient showed marked improvement after 500 c.c.'s of plasma. He had no general abdominal pain and stated that pain in left side was only present on movement. A series of flat plates of abdomen did not show presence of free gas in the pertioneal cavity. On discussion it was decided that the patient's lesion was probably confined to the abdominal wall and it was decided to wait for development under observation.

0300 hrs.: Temp 98 Pulse 100 B.P. 110/72

The patient's condition has improved with no general abdominal pain and no signs of intrapertioneal bleeding. Abdominal examination is unchanged.

0700 hrs: Temp 100 Pulse 95 Resp 20 B.P. 110/72

The patient was watched closely during the night and spent a fairly comfortable night, not complaining of pain except in hematoma of abdominal wall on movement.

X-Ray #2038 d/24 Apr 45 from Vernon Military Hospital.

Abdomen: No evidence of free gas can be demonstrated in the abdominal cavity.

Chest: A soft esophageal catheter is noted in place with the tip of the fundus of the stomach. There is elevation of the right dome of the diaphragm and the horizontal fissure with diffuse cloudy density at the right apex. Appearance is indigative of collapse of the right upper lobe. H.M. Spiro, Capt.

Developed a cough with some blood stained mucous this a.m. Abdominal examination remains unchanged with no tenderness or rigidity right side. There is discoloration over the hematoma this morning.

1900 hrs. General condition unchanged. Seen by Capt. Barber. Abdominal examination reveals no change except spreading of ecchymosis from site of injury towards midline. The swelling of the hematoma has flattened. Rectal examination was negative.

1030 hrs: Patient developed sudden severe increase of pain over site of injury in left abdomen with a rapid onset of dyspnoea, cyanosis and rapid pulse. Examination of chest reveals rhonchi and coarse rales throught right lung. Refer to Major MacLean.

B.A. MacLeod, Major.

Cyanosis of face and fingernails. Respirations rapid (40). Pulse 140. Patient has coughed up a mucoid mass with a large piece of blood. Percussion of the chest shows hyperresonance. The cardiac dullness seems markedly deminished from left and is at the right sternal margin or lateral to it on the left. The sounds on the left are clear and are very prominent over the heart. The whole right lung shows bronchospasm with coarse rhonci.

Impression: Partial collapse of right lung. To have Oxygen and X-Ray of Chest.

Keith MacLean, Major.

X-Ray: Plate is not good being slightly tilted, but right diaphragm appears very high. I believe there is a slight shift of mediastinum to the right. The left lung appears more aerated than the right.

Impression: Collapse right lower lobe.

Keith MacLean, Major

1830 hrs: Condition has improved slightly with 02 theropy. Color improved. Pulse rapid but regular at 140. Temp has remained between 99-100. Resp 40.

Abdominal examination remains unchanged except that discoloration of abdomen seems to be spreading. Has vomited twice, 2 oz brownish fluid. Is not complaining of abdominal pain and states that he feels hungry. There are sounds of gurgling present in the abdomen on stethascopic examination.

B.A. MacLeod, Major.

25 Apr 45:

0100 hrs: Seen during the last hour when he had vomited brownish fluid. This is typical of dilatation of the stomach.

0400 hrs: Levine tube was passed and stomach washed out with Soda Bicarb. Soln. Suction introduced. He was catheterized and about 2 oz of concentrated urine obtained. There is mucous in his throat, but it is very difficult for him to raise it even with help of holding his chest. The pulse continues rapid and cyanosis develops when out of the oxygen tent. The right chest continues to show marked bronchospasm but no moisture. Respiration varies from 40 to 44. The lower two thirds of the abdomenal wall is discolored and raised about one inch above the surrounding wall.

Keith MacLean, Major.

25 Ap 45: Condition poor. Patient is irrational with laboured breathing and coughing. Abdominal wall shows marked spreading of reddish discoloration to involve lower abdomen completely.
Temp 99-100. Pulse 150 Resp. 46.

Intravenous plasma 500 c.c's Continuous intravenous. Try cut down in leg and 3000 c.c.'s of 5% glucose in distilled water was given during the day.

B.A. MacLeod, Major.

1800 hrs: Hands and feet cyanosed in spite of oxygen.
Peripheral circulatory collapse becoming extreme. Keith MacLean, Major.

1930 hrs: Expired.

23 Apr 45: Patient seen with modern appearance of shock. Wide-spread contusion visible left quadrant and flank with a bologna shaped elevation of discoloration in left hypochondrium.
Abdomen was tense with much spasm on left, but not total rigidity on right. Abdominal musculature considered good; no rebound tenderness; marked tenderness on injuries on left.
Rectal - no appreciable tenderness.
X-Ray - lateral and conrmbly showed no free gas.

Due to condition of shock it was decided after consultation to give morphia and serum and examine again. After about 2 hours there was no increase in abdominal symptoms, marked clinical improvement, and I felt that further delay was justifiable. G.S. Barber, Capt.

24 Apr 45: Seen in a.m. Discoloration and spread in wall across abdomen, but there was no dilatation nor right rebound tenderness.

Rectal - discomfort, but no actual pain. No nausea or vomiting; general appearance satisfactory. About 1030 hrs. had sudden attach of cyanosis, raised pulse and respiration and raised small amount of blood stained sputum. X-Ray showed raised right diaphragm, but no free abdominal gas and lessened translucency as compared with left. Symptoms and signs were considered due to blood collapse and Major MacLean, Medical Consultant, believed all additional symptoms related to this. Abdomen showed no signs to account for chest cymptoms. There was no definite evidence of intraperitoneal damage nor internal hemorrhage. Heart check showed no appreciable decrease. Was considered that collapse was due to abdominal wall injury plus shock, etc. Meditated. This still appears to be a severe abdominal wall injury with lobar collapse added.

25 Apr 45 G.S. Barber, Capt.

POST-MORTEM EXAMINATION:

Chest: Revealed no evidence of massive pulmonary collapse and no collapse of any lobe of the right lung.

Heart: Petechial hemorrhage shock spots were present on inferior surface of pericardium.

Abdomen: On cutting the abdominal wall in the mid-line, the whole musculative was found to be oedemateous, brick red in color and obviously infected by gas gangrene. The gangrene extended the whole extent of the lower abdominal wall from just above umbilicus to the inguinal ligament. There was no evidence of free blood in the peritoneal cavity. The small bowel was slightly dilated in upper part only and there was a minimal amount of free fluid.

A laceration about 4" long in pertoneum and muscle was found on the left anterior abdominal wall running obliquely downwards and forwards just above the left iliac crest.

A loup of small bowel was seen entering the laceration which appeared to be walled off from the general peritoneal cavity. The loup of bowel was removed from the laceration and was found to be completely down across with a complete tear in the mesentery to the root. The tear was approximately 2 feet distal from the ligament of Trietz. The mesentery of the discending colon was torn and bruised. The discending colon was intact. The root of the lower iliac mesentery was distended by a hematoma.

There was a large hematoma retroperitoneally along left posterior abdominal wall from upper abdomen into pelvis.

For the purpose of record and in the event of there being any Service estate available for distribution (according to law) on account of the late

HAMMOND, John Robert P/O

J93622 R.C.A.F.

it is necessary that certain information regarding the deceased and his relatives should be furnished the Estates Branch. You are asked therefore to read the enclosed memorandum before completing pages 2 and 3 of this form. The particulars required are to be carefully filled in and the Declaration on page 4 should then be signed in the presence of a Clergyman, Priest, Local Magistrate, Commissioner for Oaths, Notary Public or a Commissioned Officer of any of His Majesty's Forces who should be asked to complete and sign the Certificate. This form should then be returned to the above address.

If there is insufficient space for complete particulars to be given opposite any question on pages 2 and 3 of this form, the space under "additional remarks" on page 4 should be used.

Board Report:

Flight Sergeant Hammond is an Air Gunner, 19 years of age, who was selected for his present trade at Manning Depot. He has two years of High School in British Columbia. Prior to enlistment he worked for two years in a radio sales and service shop and during the last five months of this employment he was in charge of the shop. His Log Book records that he graduated from No. 9 B & G School with 64.2% for ground work and 810 out of 1000 marks for air work with a standing of 78th out of 111 students. He embarked for the United Kingdom on 17.12.43 for operational training which he completed with a Log Book assessment of "average" at No. 28 OTU. At HCU he was assessed "average" and with comments: "Should do well, capable". He was posted to No. 625 Squadron on 1.7.44 and was posted with his crew to No. 170 Squadron during November, 1944. He has completed a tour of operations of 31 sorties totalling 162 hours in Lancaster aircraft and his Log Book records that he was assessed by No. 170 Squadron as a: "Good average. A sound A/G who can be relied upon". On completion of his tour he was screened and has been employed at No. 15 Base testing new aircraft.

This NCO is of good general appearance. He is well-built and of good average bearing. His manner and appearance is still somewhat youthful. He has a bright personality which is pleasing. His manner is confident and he expresses himself clearly with well-formed ideas which he presents with confidence and self-assurance. He has a good intellect and is quick in his responses. His Service spirit is good and his Conduct Sheet is clean.

The Board considers that Flight Sergeant Hammond will develop into a good officer. He is well-motivated and ambitious. It is considered that he is capable of assuming greater responsibility and is recommended for a commission.

Recommended.

1. The proceedings disclose the following facts:

J.93622, P/O J.R. Hammond, died at the Vernon, B.C., Military Hospital on 25th April, 1945, as a result of injuries received in an automobile accident on 23rd April, 1945 near Vernon. P/O Hammond was to blame for the accident in that he was driving a motor vehicle on a crooked road at an excessive rate of speed after consuming liquor. A coroner's inquest, with a jury of six civilians, found that "at the time of the accident the deceased was the driver of the car which was travelling at an excessive rate of speed, and failed to make the turn at a point where the car left the road." No other automobile was involved. P/O Hammond was not on Air Force duty at the time but was on leave pending retirement.

BRITISH COLUMBIA POLICE REPORT CONCERNING THE
DEATH OF P/O J. R. HAMMOND

1. As the result of injuries received in a motor-vehicle accident on No. 5 Highway (Vernon-Kelowna) on Monday evening, April 23rd, 1945 P/O John Robert Hammond died in the Vernon Military Hospital at about 7.45 pm Wednesday, April 25th, 1945. Coroner J.E. Harvey instructed me to summons a jury of six men for 11 a.m. Thursday, April 26th, 1945.

2. Thursday, April 26th, 1945 Campbell & Winters Undertaking Parlours, the following men of Vernon assembled before the Coroner and were sworn in as Jurymen - R.W. Ley (Foreman) W.R. Pepper, M. Beaven, T.R. Bulman, J. E. Briard and A. Harris. After a view of the body which body was identified by WO1 Frederick Hammond as being that of P/O John Robert Hammond, his cousin, the Court viewed the car which had been driven by the deceased on the night in question and then went out and viewed the scene of the accident. The Court was then adjourned till 1.30 P.M. Saturday, April 28th, 1945 to enable witnesses from Kelowna to attend.

3. Saturday, April 28th, 1945 - Court House, Vernon, the Coroners Inquest resumed its hearing, Dr. J.E. Harvey, Coroner, Mrs. H.M. Dale, stenographer, Sergt. R.S. Nelson assisting the Coroner, the following witnesses were heard;-

(a) Frederick George Hammond, sworn, W.O.1. RCAF home on 30 days leave from Overseas - stated that he had accompanied the deceased to Kelowna the early part of Monday evening, April 23rd, the deceased driving the car. At Kelowna, after supper, they had met two young women, whom the deceased knew and as the result of their conversation it was decided the two women would return to Vernon with them. Enroute to Vernon, the deceased driving, they stopped about 4 miles out and had some beer to drink. They then drove on and north of Oyama they picked up another girl who was walking on the highway and they continued on towards Vernon. Witness was sitting in the back with the two women and the deceased in the front with the other. Suddenly he felt a shaking of the car and that was all he remembered till he picked himself up down over the bank. He looked for the deceased and found him lying on the ground up the hill from the car. With the help of a stranger, he helped the deceased to the highway where a car was stopped and he brought the deceased into Vernon, to the Military Hospital. The deceased complained of a pain in his right side. This witness was questioned to a great extent by me as to the beer they drank, he denied knowledge of where it came from but did admit it was in a case he had put in the car in Vernon before leaving. This was a military case. He denied any knowledge of Rye Whiskey which was also produced by him from the same case. He could not remember anything that might reflect on him, but remembered other things which did not cause the Jury to think much of him.

(b) Mary Larden (Mrs.) sworn - stated she lives in Kelowna and on the evening of April 23rd, 1945 at about 7:30 p.m. she met the deceased and his cousin Fred and her cousin, Margaret Hundle by the Post Office in Kelowna. That she accompanied them to Vernon in the car, driven by the deceased. That shortly after they left Kelowna they stopped by the roadside and Fred produced two bottles of beer from a brown leather case he had in the back of the car and the four of them drank the two bottles between them. They drove on further and stopped again and Fred then produced a bottle of Seagrams Rye Whiskey from the same case and they each had a drink of that. Fred then

drove the car. As they were near Oyama they came upon two girls walking on the road in the direction of Vernon so they picked them up and after the Bus passed them, it also going to Vernon the deceased took over the driving of the car and the deceased said he was going to beat the bus to Vernon and stepped on the gas and was travelling at a very fast rate of speed. In fact she shut her eyes so she couldn't see how fast he was going. The first she knew of anything wrong was when the car made the first turn over. She was in the back seat with Fred Hammond and one of the girls who they had picked up. Her cousin was in the centre of the front seat with the other girl and the deceased. Witness was not hurt but was thrown out during the car turning over going down the hill. She did not know how many times it turned over. She was brought to Vernon in a car and returned to Kelowna the next morning. That was the first time she had met the deceased and his cousin. The Beer and Whiskey was not hers.

(c) Margaret Hungle, sworn, gave evidence very much the same as her cousin but stated that she had known the deceased for about three years. That the meeting in Kelowna was just by chance. That the deceased was driving the car very fast just before the accident and that no other car was involved. That she had had a drink of beer and also whiskey along with the rest of the original party. That she received injury to her head and leg. That Fred Hammond produced the liquor.

(d) George Balcombe; sworn, stated that on the morning of Tuesday, April 24th, 1945 he was driving south over Highway #5 and about four miles south of Vernon he noticed a car down over the bank about 100'. The top was off and he could not see if anyone was in the car, so he went down to investigate. He found no one and found the car belonged to the deceased's father. On his way down to the car he noticed the tools of the car on the ground just below the fence and also noticed some empty beer bottles and a Seagrams Rye Whiskey bottle with a small amount of whiskey in the neck of the bottle. He did not touch a thing but continued on his way to Oyama and on his return found the wrecking crew from the Vernon Garage there preparing to remove the car. He also saw Fred Hammond on the highway, in fact gave him a ride into Vernon. On the way in he asked Fred about the accident and asked him if he got rid of the evidence and Fred said he had thrown them away. Witness stated that Fred had the appearance of having been on quite a bing the night before. That the portion of the highway where the accident happened is in the County of Yale.

(e) John Yusek, sworn, stated he was one of the men from the garage who went down for the car. That he saw the empty beer bottles at the scene of the accident and Fred Hammond who went with them had thrown them away while they were working on the car. The steering gear was in order and all tires fully up.

(f) Gordon Cruickshanks, sworn, gave evidence as to also seeing the Seagrams Rye Whiskey bottle with some in it when he went down and also saw Fred Hammond throw it away but after Fred Hammond left he went over in the direction it was thrown and found it but left it where it was and the bottle he later showed to Sergt. Nelson was the same one, which bottle was produced to the court.

(g) Major Bruce Archibald McLeod; sworn stated he was called to the Vernon Military Hospital about 10.45 ;m the evening of Monday, April 23rd, 1945 where he found and examined the deceased. From his examination he could see the deceased had some internal injuries. He was treated for shock immediately. He had a restless night and next morning his condition was much worse and he did not recover. That he died about 7.45 pm Wednesday April 25th, 1945 in the Vernon Military Hospital. He performed an autopsy the following morning and explained the results of his autopsy to the Court and gave as the cause of death, Gas Gangrene resulting from an abdominal wall wound, associated with rupture of the bowel. He had in the lower mesentery considerable haemorrhage in between the leaves of the lower illium. That would be a contributing cause due to pressure on the circulation of the bowel.

4. JURY'S VERDICT We the Jury, enquiring into the death of JOHN ROBERT HAMMOND find according to the evidence that P/O John Robert Hammond, R.C.A.F. came to his death on Wednesday, April 25th, at about 7.45 pm in the Vernon

Military Hospital, as a result of injuries received from a car accident which occurred at a point approximately five miles south of Vernon on the Vernon-Kelowna road on Monday, April 23rd, 1945 at about 10.30 pm. We find th that at the time of the accident the deceased was the driver of the car which was travelling at an excessive rate of speed and failed to make the turn at a point where the car left the road.

5. P/O Hammond had just completed his 30 days leave after returning from overseas service and was awaiting further instructions. His Cousin Frederich Hammond was also home on 30 days leave. P/O Hammond's home is in the City of Vernon on the corner of 7th & Schubert Streets. The highway for at least five mieds at this portion is very crooked and anyone driving at an excessive rate of speed would fail to make the curve. The car was quite badly wrecked.
